Dear Family,

We are very pleased to inform you that Sneads Ferry Quality will be participating in the Onslow County Partnership for Children's (OCPC) Continuous Quality Enhancement Initiative this year! The Continuous Quality Enhancement Initiative (CQEI) is a program in which OCPC provides a financial incentive to support eligible child care programs through collaboration with our technical assistance specialists in an effort to increase quality in programs in Onslow County.

Your child's program will be improving current practices through the Quality Rating and Improvement System topic. This initiative will help the program gain a foundational understanding using evidence-based practices, providing young children with high quality environments, interactions, and curriculum. This initiative also encourages family engagement to help support the partnership and responsibility between home and program. Such engagement is essential to program improvement.

Your program will be asking you to be involved in the process as well! Some examples of how you may be asked to participate include family surveys (twice a year), parent support opportunities, event participation, and more. We hope that you will participate in as many ways as is convenient for your family. You will receive further information about how your family can support your child's program in the coming weeks.

Should you have any questions or if you would like further information, please speak to your program's administrator. You may also feel free to email questions to me at autumn.bishop@onslowkids.org.

Best regards,

Autumn Bishop
School Readiness Director
Onslow County Partnership for Children
